CAREER OBJECTIVE

B.Tech Computer Science graduate (CGPA 8.69) from SR University, Warangal with hands-on experience deploying and maintaining applications on AWS cloud infrastructure, supported by CI/CD pipelines, Linux server management, and Docker containerisation. Applied security best practices and maintained thorough documentation throughout a real production deployment. Three AWS Academy certifications. Cisco CCNAv7 certified with strong network security fundamentals. Seeking AWS DevOps Engineer Internship at Neeved Ventures to deploy and maintain AWS applications, manage CI/CD pipelines and Linux servers, and collaborate on release processes.

TECHNICAL SKILLS

AWS Deployment & Maintenance: Deploying and maintaining applications on AWS EC2, S3, IAM, VPC

CI/CD Pipeline Support: Git, GitHub Actions - CI/CD pipeline setup and monitoring

Linux Server Management: Managing Linux servers, troubleshooting deployment issues, uptime monitoring

Containerisation: Docker containers - building, running, and managing containerised applications

Workflow Automation: Automating routine operational tasks and workflows using Python and Bash

Security Best Practices: IAM least-privilege policies, security group configuration, secure deployment practices

Documentation & Collaboration: Maintaining documentation, collaborating with development teams on release processes

Networking & Security: TCP/IP, VPC routing, DNS, firewall concepts, Cybersecurity Essentials (Cisco CCNAv7)

PROJECTS

LifeRoute - AWS Deployment, CI/CD, Linux Servers, Security, Documentation

Python | Flask | AWS EC2 | S3 | IAM | GitHub Actions | Docker | Linux | 2025

- Deployed and maintained a Flask application on AWS EC2, managing the full deployment lifecycle from initial setup to ongoing maintenance and updates.
- Set up CI/CD pipeline support using Git and GitHub Actions, monitoring pipeline runs and resolving build/deploy failures as they occurred.
- Managed Linux servers - configured SSH access, monitored uptime and system performance, and troubleshooted deployment issues including service crashes and connectivity failures.
- Worked with Docker containers to package and deploy the application consistently, automating routine operational tasks and workflows with Python and Bash scripts.
- Implemented security best practices: IAM least-privilege roles, restrictive security group rules, and encrypted S3 storage to protect infrastructure and data.
- Maintained clear documentation of deployment steps, security configurations, and infrastructure setup, and collaborated on structured release processes for consistent deployments.

Medical Appointment Booking System

PHP | MySQL | Linux | Git | Security | 2024

- Deployed application with basic security hardening (input validation, access control) and documented server configuration and deployment steps.

EDUCATION

B.Tech - Computer Science Engineering | CGPA: 8.69

SR University, Warangal, Telangana | 2022 - 2026

Diploma - Computer Engineering | 79%

VMR Polytechnic, Warangal | 2019 - 2022

CERTIFICATIONS

- AWS Academy Cloud Foundations - Amazon Web Services
- AWS Academy Web App Builder - Amazon Web Services
- AWS Academy Data Pipeline Builder - Amazon Web Services
- CCNAv7 Introduction to Networks - Cisco Networking Academy
- Cybersecurity Essentials - Cisco Networking Academy
